

G2000

Enterprise WiFi Gateway

Features:

- WiFi gateway appliance to connect your existing WiFi access point deployment
- Traffic from up to 40 wireless access points can be routed through the gateway
- Support up to 2000 concurrent user connections
- Support aggregated WAN ports with Active/Standby Internet connection
- Automatic traffic routing based on source IP, destination IP, source port, destination port, domain or workload
- Compatible with mainstream enterprise AP+AC wireless solution
- Support seamless integration with GoBig WiFi Merchant cloud

Description:

G2000 is an enterprise WiFi gateway which routes the traffic from up to 50 wireless

access points and support up to 2000 concurrent user connections. G500 has aggregated WAN ports which can have Internet connection from same or different ISP to provide high speed Internet access. G2000 is compatible with mainstream enterprise AP+AC wireless solution, which makes it easy to design a wireless solution for different application scenario.

Specifications:

CPU	Intel i5 3470 3.2GHZ 4 Core
Memory	DDR3 1333 2GB
Chipset	intelB75
Hard disk	4GB SSD
NIC	intel PCI-E 1000M 6*82583v
Power supply	250W
Enclosure	Anti-shock sheet metal chassis
Cooling systems	Fan
Weight	8.82 Lbs
Dimensions (W X D X H)	16.93 x 10.24 x 1.77 Inch
Environment	Operating temperature: 32°F to 104°F Storage temperature: -4°F to 158°F Operating humidity: 10% to 90%RH Non-condensing Storage humidity: 5% to 90%RH Non-condensing
